

Pour in The Video, add the Audio and just Mix

The CMX07 has arrived. This latest generation real-time audio and video mixer and effects processor provides hundreds of sophisticated effects, wipes, fades etc. You can choose from a variety of digital effects such as strobe, mosaic, paint and negative, and there are also chroma and luminance keys. The picture-in-picture feature offers you the option of multi-sized sub-images which can be positioned anywhere on screen and there is a professional joystick control for accurate positioning of digital effects. Other functions include A/V mixing, stereo audio mixing, S-Video compatibility and a built in dual time base corrector for clean switching between sources without any distortion or noise.

The CMX07 A/V mixer is available now for around £699.95 including VAT. For further details and stockists please contact Holdan on 0845 130 4445 or visit www.holdan.co.uk
