Backtraxx - The Ultimate Collection of Royalty Free Music

If you are looking for mediocre quality, synthesised music then I suggest that you go elsewhere because this is not a description of the Backtraxx music library. Backtraxx is a complete collection of original, high quality, high definition music tracks that no producer should be without.

Newly available in the United Kingdom from Holdan, the Backtraxx Music Library consists of 28 themed CD's (Plus a CDROM track index) contained within 14 Individual volumes ranging from corporate to high energy, via special events and everything in between.

In total there are more than 1000 digitally re-mastered tracks, guaranteed to work with every system, (Standard Compact Disk Audio) which are diverse enough for use in any kind of production.

The complete library of 28 CD's will be available from at a price of £299 +VAT

To receive a free copy of the track index on CD please contact Holdan on:
