

**DVD Duplication has never been so easy!
Copy right with the Vidmax
The right copy**

Holdan have this month unveiled their new Vidmax – a small device that makes copying your DVD movies to VHS or DVD using your VCR or DVD recorder incredibly simple.

The new Holdan Vidmax simply stabilises the video signal to provide a clean sharp picture; eliminating colour bleed, picture flashing and all other problems associated with duplicating your DVD's. (Although this product removes all kind of copy protection it should not be used to make copies of material that is copyright protected. Unauthorised duplication of material of this type is illegal without consent of the owner)

With no complicated wiring; simply plug the Vidmax in to the SCART socket on your Video or DVD recorder and connect it via a SCART cable to your DVD player, press play on your DVD player and record on your VCR or DVD recorder – it really is that simple.

The Vidmax is available now for around £59.95 including VAT. For further details and stockists please contact Holdan Limited on 0845 130 4445 or visit www.holdan.co.uk
