

Accsoon V-Lock Adapter

ProdCode: ACSACC32

V-Lock adapter for the CineView Master 4K and CineView 2 SDI

[\[Download Images\]](#) (.zip file)

Features

- V-Lock adapter for the CineView Master 4K and CineView 2 SDI
- Extend Your Shooting Time for Professional Shoots
- Quick and Secure Installation
- Simultaneous Power Supply
- High Compatibility
- Durable and Reliable Construction
- Flexible Installation Options

Accsoon V-Lock adapter for the CineView Master 4K and CineView 2 SDI wireless transmitters. This affordable new dock mounts via V-lock and allows a camera, and a CineView Master 4K or CineView 2 SDI, to be powered via the same V-lock battery. Once attached, it transforms the camera and transmitter into a more ergonomic, easy-to-handle, integrated solution. It is perfect for cameras with V-lock plates, ENG cameras, and mirrorless cameras with V-lock adapter plates.

The CineView Master 4K or CineView 2 SDI wireless transmitter is securely held in the adapter and powered via a short captive DC cable. Power from the V-lock battery is

passed through to the camera.

The V-Lock adapter is made of aluminum alloy, making it durable and lightweight. Users will appreciate that at just 293 g (10.35 oz) the adapter adds very little to the overall weight of a camera package, ensuring easy operation and good balance.
