ProdCode: AOATOMAECT01

PTZ Remote Control

[Download Images] (.zip file)

Features

- PTZ Remote Control
- Includes NDI | HX3
- Supports H.265, H.264 and MJPEG compression
- Output options include RTSP, RTMP, and ONVIF
- Power over Ethernet (PoE+)
- Slots into existing multi-camera environments
- Integrates seamlessly with third-party PTZ systems

The dedicated remote-control hub enables advanced multi-camera operation, preset switching, and remote production control over IP.

Versatile and compatible

All A-Eye models include NDI|HX3, support H.265, H.264, and MJPEG compression, and feature a wide range of output options including HDMI, 3G-SDI, USB, and IP streaming via RTSP, RTMP, and ONVIF. Power over Ethernet (PoE+) support means a single cable can deliver power, video, and control—simplifying setup and reducing

cable clutter.

One of the key advantages of the A-Eye series is its use of industry-standard protocols and physical connections, allowing it to slot into existing multi-camera environments with ease. Whether you're upgrading one camera or expanding an entire setup, A-Eye Cameras and Control integrates seamlessly with third-party PTZ systems—making it the perfect addition to any professional workflow, exiting system or brand new installation.

Built for every workflow

With real-time AI-powered tracking and advanced PTZ motion (±170° pan and -30° to +90° tilt range), A-Eye cameras follow your subject with fluid, precise movement—perfectly framing every step, whether you're streaming a live concert, teaching a class, or presenting to a global audience.

- **Content creation**
  A-Eye brings hands-free professionalism to solo creators—great for vlogs, cooking, beauty, or fitness content.
- **Education**
  Instructors move naturally between boards, screens, and students, while A-Eye keeps the framing perfect for remote learners.
- **Business & enterprise**
  Presenters move freely across the room or stage, knowing A-Eye is capturing every word and gesture.
- **Live events**
  From keynote speakers to musicians, A-Eye delivers dynamic wide and close-up shots, automatically.
- **House of worship**
  A-Eye makes it simple to share every word and gesture of worship with remote congregations—capturing services naturally and respectfully.
- **Sports & coaching**
  Coaches and analysts capture the action with ease, tracking movement and zooming in for analysis or live streaming.
