- Rechargeable battery lasts up to 8 hours wireless mode, up to 50 hours wired
- Latency <20ms with wireless range up to 100 meters
- Locking USB-C connector and cable included

A compact yet powerful wireless and wired shotgun microphone designed for

filmmakers, journalists, YouTubers, and production professionals. It's the perfect match for Atomos' Ninja and Shogun monitor-recorders, as well as professional cameras and recording devices.

The dual-mode design offers the flexibility to operate wirelessly over 2.4GHz or via a direct USB-C digital audio connection with the Atomos' unique locking USB-C connector, ensuring a secure, professional-grade link to cameras, monitors, and computers. The StudioSonic Shotgun Mic combines both wireless freedom and reliable wired connectivity to cater for a diverse range of scenarios, including on-location interviews, run-and-gun shooting, field reporting, and capturing unscripted dialog. Its high quality 48kHz/24-bit super cardioid design isolates voices with precision, even in noisy environments.
