Professional grade production headphones

[\[Download Images\]](#) (.zip file)

Features

- Professional grade production headphones
- 50mm high-resolution drivers
- 10Hz–40kHz frequency response
- 105dB sensitivity and 30Ω impedance
- 180° swivel ear cups
- Detachable 2m coiled cable
- Dual 3.5mm + 6.3mm ports

Professional wired over-ear headphones crafted for video and audio content creators, engineers, studio professionals and DJs. Whether you're capturing dialogue on set, editing sound for a film, layering instruments in a mix, or mastering the final track, StudioSonic delivers true-to-source audio precision—so you can hear every detail exactly as it was meant to be heard.

Comfortable, over-ear design

Designed for hybrid workflows, StudioSonic features a closed-back, over-ear design

for passive noise isolation, keeping you focused even in noisy environments. Reinforced construction ensures long-lasting durability, while ultra-soft memory foam earpads and a cushioned adjustable headband offer day-long comfort.

Reliable and accurate

180° swivel ear cups support one-ear monitoring—ideal for quick reference checks or live applications. A detachable 2-meter coiled cable provides flexible movement without tangling, and dual 3.5mm + 6.3mm ports mean you can connect to any setup, no adapters required.

StudioSonic production headphones are designed to be the go-to monitoring solution for serious creators. Whether you're balancing vocals, refining a soundscape, or monitoring on set, they deliver reliable, accurate sound in every scenario.
