ATEN KL1516AIM

ProdCode: ATENKL1516AIMAA

1-Local/Remote Shared Access 16-Port Multi-Interface Cat 5 Dual Rail LCD KVM over IP switch - 17inch LCD

[Download Images] (.zip file)

Features

- 1-Local/Remote Shared Access 16-Port Multi-Interface Cat 5 Dual Rail LCD KVM over IP switch - 17inch LCD
- Exclusive LED illumination light - designed by ATEN to illuminate the keyboard and touchpad to allow visibility in low-light conditions
- Dual Rail – LCD monitor slides independently of the keyboard/touchpad
- One local/remote share access bus –allowing IT administrators to monitor and control up to 16 servers
- Superior Video Quality – supports input video resolutions up to 1920 x 1200 @ 60Hz** up to 30 meters, 1600 x 1200 @ 60Hz up to 40 meters, and 1280 x 1024 @ 75Hz up to 50 meters

The KL1516AIM Dual Rail LCD KVM Switch is a control unit that allows secure access up to 16 computers from a single KVM (keyboard, video, and mouse) console. It consists of an integrated LCD monitor, keyboard, and touchpad in a 1U rack-mountable retractable sliding housing.

The LCD and keyboard/touchpad modules slide independently of each other. To maximize space in your data center, the keyboard/touchpad module slides back to " hide away " when not in use, while the thin profile LCD monitor rotates back – flush against the rack – allowing convenient monitoring of computer activity.

The KL1516AIM features IP-based connectivity that allows local and remote operators to monitor and access the computers on your installation. Because it uses TCP/IP for its communications protocol, the KL1516AIM can be accessed from any computer on the LAN, WAN, or Internet – whether that computer is located down the hall, down the street, or halfway around the world.

Compact, high-density, RJ-45 connectors and Cat 5e/6 cable make for a compact, efficient, wiring configuration, while the use of KVM Adapters to link to the computers, permits any combination of PCs, Macs, Sun computers, and serial devices to coexist on the installation.

For added convenience, ports for an external keyboard, monitor, and mouse are provided on the rear panel – permitting you to manage the switch from a local console. There is also an external USB mouse port on the keyboard module, allowing you to use an external mouse, rather than the touchpad.

Enhanced features include a Panel Array Mode™ that displays the video output of up to 16 computers at the same time, and a Message Board that allows logged in users to conveniently and instantly communicate with one other – no matter where in the world they actually are. The KL1516AIM is an ideal solution for your server room management.

Note:
1. The input video resolution of KL1516AIM has been enhanced to Full HD.
2. The KL1516AIM does not support virtual media even when paired with a virtual media-enabled KVM adapter.
3. Optional rack mount kits are available. For more information, refer to Compatible Accessories below.

In the box:

- 1x KL1516AIM Dual Rail LCD KVM Switch
- 1x Power Cord
- 1x Standard Rack Mount Kit
- 1x Firmware Upgrade Cable
- 2x L Brackets
- 1x User Instructions
