The ATEN VE8900R Video over IP Receiver delivers visually lossless 1080p AV signals with low latency over long distance via a local network of standard Gigabit network switch*.

The VE8900R provides an effective, easy-to-use, and economical digital signage solution with the following features and advantages that directly address the challenges system integrators encounter when implementing AV over IP systems:

- Limitless scalability and flexibility
- No complicated IP setup

- No additional server PCs or software required
- Go further for less with daisy chaining

Engineered to meet today's demands of large scale, multi-display, 1080p signal transmission, and designed to be easy to set up and operate, the VE8900R Video over IP Receiver is an ideal product for a wide range of environments, such as trade shows, airports, university campuses, conference centers, and shopping centers
