- Multiple Control Methods – system management via front-panel pushbuttons, IR, RS-232 and Ethernet (Telnet / Web GUI) connections

The VM5404H 4 x 4 HDMI Matrix Switch is a distinct HDMI solution that offers an easy and affordable way to route any of 4 HDMI video sources to any of 4 HDMI displays, with a quick view of all port connections via the front panel LCD.

The VM5404H includes seamless switching that employs a FPGA matrix architecture that ensures continuous video streams, real-time control and stable signal transmissions. With a built in high-performance scaler, the VM5404H easily converts various input resolutions into various output display resolutions, giving viewers the best video and picture quality across all displays. The switch integrates video wall

functionality with an easy to use web GUI that lets you create 8 connection profiles that can be customized into different video wall layouts.

The VM5404H is an ideal solution for applications that require multiple HDMI displays with multiple HDMI sources to be conveniently setup in multiple locations, such as for stage presentations, competitions, control centers, and installations that require real-time reports.
