16 channels embedded in SD, HD, Ultra HD
- **HDMI Video Input**
1 x HDMI 2.0a connector
- **HDMI Audio Input**
8 Channels embedded in SD, HD, Ultra HD
- **Computer Interface**
Gen 2 PCIe Express 4 lane, compatible with 4, 8 and 16 lane PCIe slots

DeckLink Mini Recorder 4K is a low profile PCIe capture card, featuring 6G-SDI and the latest HDMI 2.0a connections so you can record all formats up to 2160p30 on your computer. The SDI and HDMI inputs automatically detect and switch between all video formats. You even get high dynamic range recording and metadata over HDMI, along with support for Rec. 2020 colour space. The DeckLink Mini Recorder 4K is perfect for integrating into mobile live capture environments, broadcast trucks and more. You can even develop your own custom capture solutions using the Blackmagic Desktop Video SDK for Mac OS X, Windows and Linux. Includes two PCIe shields for both full height and low profile slots.

The new DeckLink Mini 4K models are low profile 4 lane generation 2 PCI Express cards that include 6G-SDI and HDMI 2.0a connections. This means the high quality connections support broadcast quality 10-bit YUV and 12-bit RGB video, along with the latest Rec. 2020 colour and support for high dynamic range (HDR) formats and HDR metadata. Both DeckLink Mini 4K models are fully compatible with the Blackmagic Desktop Video SDK, making them perfect for OEMs or developers that are building custom playback or recording solutions.

DeckLink Mini Recorder 4K can capture broadcast quality video directly from SDI and HDMI sources like decks and cameras to their computer. The low profile design of DeckLink Mini Recorder 4K makes it incredibly versatile and ideal for integrating into mobile live capture environments and outside broadcast trucks. Both models work with uncompressed and compressed video in open standard file formats such as QuickTime and DPX so they are compatible with virtually all professional editing, colour correction and visual effects software. That means customers can use the DeckLink Mini 4K models with software such as DaVinci Resolve, Fusion, Media Composer, Final Cut Pro, Premiere Pro and more.

In the box:

- DeckLink Mini Recorder 4K
- Low profile slot bracket
- SD card with software and manual
