

Blackmagic Design PYXIS Monitor

ProdCode: BMDCINEURSABBAM

5inch HDR touchscreen monitor with full camera control

[\[Download Images\]](#) (.zip file)

Features

- 5" HDR touchscreen monitor with full camera control
- Can be mounted almost anywhere
- Perfect for use when rigging or other accessories block Blackmagic PYXIS' internal display
- 1500 nit high brightness
- Includes a removable sunshade

Blackmagic PYXIS Monitor is a versatile 5" HDR touchscreen monitor with full camera control that can be mounted almost anywhere. It provides an additional monitoring and camera control option that can be mounted anywhere so it's perfect for use when rigging or other accessories block Blackmagic PYXIS' internal display. The bright 1500 nit high brightness screen makes monitoring easy, even in bright sunlight and includes a removable sunshade that also folds up to protect the monitor. Blackmagic PYXIS Monitor is easy to set up with a single USB-C cable connection for video, power and camera control.

Add Touchscreen Monitoring with Camera Control

It provides the same controls and overlays as PYXIS' built in LCD, so it's perfect to use when rigging or accessories block the internal display. Multiple mounting points make it easy to attach on any camera rig and use as a large viewfinder for easier focusing and framing. Or use it as an assist station so crew can frame and monitor shots from any position on set. There are 3 customizable buttons for quick access to zebra, focus assist, false color and more. Plus, the bright 1500 nit display and removable sunshade ensure visibility, even in sunlight.

In the box:

- Blackmagic PYXIS Monitor
 - Blackmagic PYXIS Clip On Sunshade
 - Welcome wallet with QR code for software download
 - Blackmagic Design Sticker
