Blackmagic Design 3G-SDI Arduino Shield

ProdCode: BMDCINSTUDXURDO

Arduino expansion board or â€œshieldâ€• to develop custom control solutions for Blackmagic Design cameras

[Download Images] (.zip file)

Features

- 3G-SDI Arduino Shield is an Arduino expansion board or "shield" that makes it possible for anyone to develop their own custom control solutions for Blackmagic Design cameras
- Arduino is a popular low cost open source micro controller platform used by developers and enthusiasts
- Attaches to any Arduino and then supports inserting camera control commands into the 3G-SDI link to the camera
- Blackmagic Studio Cameras and URSA Mini can now be controlled remotely via Arduino code and you can design and build your own custom CCU or broadcast automation solutions
