ProdCode: BMD CINURSAMKIT

5inch HDR touchscreen monitor kit with full camera control

[\[Download Images\]](#) (.zip file)

Features

- 5" HDR touchscreen monitor kit with full camera control
- Can be mounted almost anywhere
- Perfect for use when rigging or other accessories block Blackmagic PYXIS' internal display
- 1500 nit high brightness
- Includes a removable sunshade, Monitor Swivel Mount, Monitor Fixed Mount and screws, Monitor Dovetail Shoe and screws

Blackmagic PYXIS Monitor is a versatile 5" HDR touchscreen monitor with full camera control that can be mounted almost anywhere. Blackmagic PYXIS Monitor Kit contains the monitor, foldable sunshade, locking USB cable and PYXIS Mounts to attach to Blackmagic PYXIS and Blackmagic URSA Cine cameras. The design of the PYXIS Mounts with a dovetail means the PYXIS Monitor can be quickly attached and removed from the camera. The mount makes it simple to position the monitor where customers need it without requiring tools to loosen bolts.

Add Touchscreen Monitoring with Camera Control

It provides the same controls and overlays as PYXIS' built in LCD, so it's perfect to use when rigging or accessories block the internal display. Multiple mounting points make it easy to attach on any camera rig and use as a large viewfinder for easier focusing and framing. Or use it as an assist station so crew can frame and monitor shots from any position on set. There are 3 customizable buttons for quick access to zebra, focus assist, false color and more. Plus, the bright 1500 nit display and removable sunshade ensure visibility, even in sunlight.

In the box:

- Blackmagic PYXIS Monitor
 - Blackmagic PYXIS Clip On Sunshade
