

# Blackmagic Design DaVinci Resolve Replay Editor

**ProdCode: BMDDVRESPMLEKAR**

Editor panel specifically designed for multi-cam editing for news cutting and live sports replay

[\[Download Images\]](#) (.zip file)

## Features

- Editor panel specifically designed for multi-cam editing for news cutting and live sports replay
- Includes buttons to make camera selection and editing extremely fast
- Connects via Bluetooth or USBâ€™C

## DaVinci Resolve Editor Keyboards

DaVinci Resolve keyboards have been designed to edit much faster than a mouse because you can use both hands at the same time. The DaVinci Speed Editor features dedicated edit function keys and a high quality search dial with transport controls. You can use the search dial and source tape buttons with your right hand to locate shots, while simultaneously marking in and out points, performing edits and live trimming. The DaVinci Resolve Replay Editor builds on these controls adding live to air camera selection and slow motion replay with stingers. The DaVinci Resolve Editor Keyboard adds a QWERTY keyboard with colour coded shortcut keycaps, designed for editors who spend hours each day editing.
