

Blackmagic Design Smart Remote 4

ProdCode: BMDULTMSMTREM4

Remote Control for Ultimatte

[Download Images] (.zip file)

Features

Control up to 8 Ultimatte units with one remote

Ultimatte Smart Remote 4 is a touchscreen remote that connects via Ethernet to control Ultimatte 12. It can be used on the desktop or rack mounted with other equipment. Up to eight Ultimatte 12 units can be daisy chained together and connected to the same Smart Remote, so you don't have to worry about adding a video router or hub. Smart Remote 4 features physical buttons so you can switch and control any attached Ultimatte 12. There are also buttons for quickly loading and saving presets, along with a touchscreen that gives you total control over every parameter. It's easy to design your own custom control solutions for Ultimatte 12 because it uses a simple, open text based protocol. You can even Telnet into Ultimatte 12 over your network, so you can develop and test custom control solutions.
