Whether at a live event, in a studio or house of worship, The Cartoni Lifto 25/S Pro with RX Box supports your vision. The Lifto 25/S Pro with RX Box brings smooth on-air quality movement utilizing the vertical high range as a natural shot. The Lifto 25/S Pro elevation unit is designed to work with most major PTZ Camera Controllers including

Panasonic, Visca, Skaarhoj and Sony through a dedicated RX Box. Setting up in minutes, the Lifto 25/S Pro easily connects directly into the RX Box and through an ethernet cable to the camera controller for variable speed and preset positioning, while the joystick controls up/down movement.

The Lifto 25/S Pro can also be controlled /programmed independently through the optional KPTZ0205 TX box and foot pedals.

Broadcasters can use the Lifto 25/S Pro in the studio with a camera prompter. The patented Smart Deployment Series SDS tripod with Smart-Stop Mid-Level Spreader are engineered for great stability and rigidity. An optional dolly allows for quick movement around the studio and the optional T-bar will allow for multiple cameras. Cartoni Lifto 25/S Pro offers broadcast quality performance at a competitive price.

The Lifto 25/S Pro can be upgraded to Lifto 25/S Twin Pro with purchase of an additional APTZ009 Lifto Motorized Column

This Lifto 25/S Pro System comes equipped with a built-in spreader and rubber feet, a quick release camera attachment for PTZ cameras and a safety ring to secure the camera. It can be mounted on the Cartoni lightweight dolly for easy travelling on the studio floor.

The Lifto 25/S Pro unit will also pack into a compact high quality wheeled case for easy transportation, available to order as an accessory.
