

Cokin X-Pro (XL) Nuances Extreme Grad ND4 Hard

ProdCode: COKIN10895

Hard Graduated Neutral Density Filter ND4 (2 f/stops) in highly resistant mineral glass

[\[Download Images\]](#) (.zip file)

Features

NUANCES Extreme filters are made of a highly resistant mineral glass, able to resist accidental fall and introducing innovative technology. A new coating process ensures an uniform density and a nano metallic alloy is applied on both side of a highly resistant tempered glass, resulting in a stunning neutrality. Nuances Extreme Hard Graduated ND4 filter allows up to 2 f/stops of light compensation with a very short transition (“hard”) close to the center of the filter. Therefore the maximal exposure compensation of the filter (2 f/stops) is available on almost the half surface of the glass. Round corners and 2.3mm thickness makes Nuances Extreme XL filters easier to insert in extreme conditions. COKIN recommends the use of the Cokin Creative or EVO filter-holders in XL size (X-Pro Series) with the NUANCES Extreme range of filters in XL size.

- Hard Graduated Neutral Density Filter ND4 (2 f/stops) in highly resistant mineral glass
- 2-Stop Graduated Neutral Density Filter
- Highly resistant mineral glass
- Nano-Metallic Alloy coating resulting in a stunning neutrality

In the box:

- Nuances Extreme glass filter
 - Filter pouch
