

Cokin Z-Pro (L) Nuances Extreme Full ND Kit

ProdCode: COKIN11033

Glass ND8 (3 stop), ND64 (6 stop) and ND1024 (10 stop) filters for Cokin L Size (Z-Pro Series) filter holders

[\[Download Images\]](#) (.zip file)

Features

- 3-Stop Solid Neutral Density Filter (with pouch)
- 6-Stop Solid Neutral Density Filter (with pouch)
- 10-Stop Solid Neutral Density Filter (with pouch)
- Hardened Tempered Schott Glass
- Nano-Metallic Alloy coating for stunning colour neutrality and consistency across the range
- Filter Width: 100mm

The Full ND Kit is an ideal solution to equip yourself with 3 of the most popular Cokin NUANCES Extreme ND Filters: Full ND8, ND64 and ND1024.

NUANCES Extreme filters are made from highly durable mineral glass and are able to resist accidental falls. They introduce innovative technology: A new coating process ensures uniform density and a nano metallic alloy is applied on both sides of the tempered glass, which results in stunning strength and colour neutrality.

The Nuances Extreme ND8 provides 3 stops of light reduction, while the ND64 reduces by 6 stops - these filters are ideal for reducing depth of field in bright conditions, or lowering shutter speeds. The Nuances Extreme ND1024 absorbs a full 10 f-stops of light, making it ideal for very long exposure photography and/or depth of field reduction in extremely bright conditions for video shooting.

Rounded corners and 2mm thickness make Nuances Extreme filters easier to insert in extreme conditions. COKIN recommends the use of the EVO filter-Holder to ensure efficient protection against light-leaks.

In the box:

- Nuances Extreme Solid ND8, Solid ND64 and Solid ND1024 Glass Filters
 - Filter Pouches
 - Cleaning Cloth
 - Light Sealing Gasket
