[\[Download Images\]](#) (.zip file)

Features

- Instant Replay
- Multi-resolution for different cameras
- Capture and review the highlight
- GPI interface

Simple instant replay

Video production team can use with slow motion to review plays for referees and coaches during games and matches. (hard drive sold separately)

Multi-resolution for different cameras

Supports 1080p/1080i/720p video resolutions.

Capture and review the highlight

Built in internal 4GB (30sec.) buffer can be used in the highlights of the event, the

captured video can be repeated in speed or playback mode to seize the perfect moment.

GPI interface

Allows other devices such as a switcher to trigger the playback.

Easy-to-use control device available

The RMC-400 as a control input device can command up to four HDR-10 instant replay units simultaneously. Shortcut keys and jog wheel make performing live instant replay a breeze.
