

Datavideo OBV-4000

ProdCode: DATATOBV4000

4K 8-channel mobile broadcast solution

[\[Download Images\]](#) (.zip file)

Features

- 4K 8-channel mobile broadcast solution
- Transportable Solution for Both In-Studio and On-Location Productions
- Ideal for video switching, communication, recording, intercom, video transmission, audio delay, and scope monitoring

The Datavideo OBV-4000 is a powerful, mobile broadcast solution designed to fit into the back of a small van, providing comprehensive production facilities for both in-studio and on-location shoots. Built around a cutting-edge 4K switcher, the OBV-4000 supports up to 8 channels of 2160p UHD 12G-SDI and HDMI video signals. The system is housed in a rugged aluminium casing and integrated into a sturdy rack with a newly designed Console Desk, ensuring stability and protection during transport and use.

Equipped with essential features such as video switching, communication, recording, intercom, video transmission, audio delay, and scope monitoring, the OBV-4000 is ideal for broadcasters and video professionals who require a reliable, transportable solution that can adapt to various production environments. Its design also allows for

future system expansion, making it a versatile tool in the evolving landscape of multimedia production.

Kit Includes

[SE-4000](#)

8-Channel 4K Live Switching

Experience broadcast-grade UHD 4K50/60P quality with the MS-4000's 12G-SDI and HDMI 2.0 input interfaces. The device combines physical full-function buttons with a sleek 5-inch full-color LCD touchscreen.
