

Datavideo TP-650 MARK II

ProdCode: DATATP650MKII

Large Screen Prompter Kit for ENG Cameras

[\[Download Images\]](#) (.zip file)

Features

- Large Screen Prompter Kit for ENG Cameras
- Professional teleprompting made easy
- Suitable for tablets up to 15.6"
- Optional remote can be used wired or wireless

Easy to use tablet teleprompter: ENG and Freestanding Configurations

The TP-650 MARK II teleprompter, can be used with ENG style cameras, where the camera is mounted directly to the teleprompter rig, or with any camera in its freestanding configuration.

Professional teleprompting made easy

Hardware built to withstand the demanding conditions of professional shoots and software with high end features, our teleprompters are designed to be simple and straight forward to operate by the talent or remote operator. We use a high-quality mirror glass with a low iron content, meaning that the mirror has no tint.

Suitable for tablets up to 15.6"

The TP-650 MARK II features an even larger mirror and is designed to accommodate large tablet computers including the 12.9" iPad Pro to give user a great visual experience while using the prompter.

The TP-650 MARK II houses any tablet with a minimum width of 145mm and maximum of 265mm measured in portrait orientation.

Optional Bluetooth and wired remote control

The WR-500 can be used to control our powerful dvPrompter Plus app in Wired or Bluetooth modes. The controller allows you to pause and resume the scroll, increase and decrease speed, increase and decrease font size, jump to specific points within the script (break markers) and switch between scripts in the playlist.

dv Prompter Plus

dv Prompter Plus is a powerful teleprompter scripting application suitable for Apple and Android devices.

dv Prompter Plus: Flexible control options

dvPrompter Plus supports direct talent led control via our WR-500 Wired/Bluetooth remote control or remote control via IP using any web browser*.

Both options allow you to pause and resume the scroll, increase and decrease speed, increase and decrease font size, jump to specific points within the script (break markers) and switch between scripts in the playlist.

dv Prompter Plus: Remote monitoring via WiFi or Ethernet

Control and monitor the prompter over a local network using any device with a modern web browser.

dvPrompter Plus: Powerful rich text editor

You can remotely change the font size, type, colour and justification on a per script basis and even use multiple different fonts within a single script. The editor also has support for embedding images and creating playlists from multiple scripts.

dvPrompter Plus: Synchronize multiple tablets via IP*

Connect multiple teleprompters together using our unique IP synchronisation over Ethernet or WiFi.

*In app purchase required for web browser control and IP synchronisation

Supports PowerPoint and Keynote slides*

In addition to text-based scripts you can now import your Powerpoint or Keynote presentation slides via the web interface, slides can be controlled using the hardware WR-500 control or the web based remote control interface. dvPrompter Plus supports seamlessly switching between text-based scripts and slides, you can even add slides and text-based scripts to a playlist.

dvPrompter Plus supports mirroring slides in real time so your content is the right way around even when viewed via the mirror glass.

*Requires in-app purchase

Real Time Editing*

Interrupt live broadcasts with breaking news or urgent updates, simply modify the script via the web interface and watch it update in real time.

*Requires in-app purchase
