

Datavideo VP-737

ProdCode: DATAVP737

Composite Signal Repeater

[\[Download Images\]](#) (.zip file)

Features

- Wired composite video transmission as far as 200 meters
- Completely adaptive - quick, easy installation and setup, no configuration required
- Cat5e extension design makes use of existing Cat 5e or better wiring infrastructures

VP-737 is a composite video signal repeater which consists of a transmission and receiver unit.

VP-737 is able to extend composite video source signal up to 200 meters away over Cat5e (or better) cable. With no software configuration required, the installation and setup is quick and hassle-free.
