Out of the box Camera Control System for Panasonic & Visca PTZ

[Download Images] (.zip file)

Features

- Out of the box Camera Control System for Panasonic & Visca PTZ
- Generic bundle to support Panasonic and Visca from out of the box
- Will support up to 10 cameras
- All you need to get started
- Simple out of box experience

Includes

- [IDS Control System](#)
- [IDS TS10.1](#)
- Support for Panasonic and Visca PTZ Control

The IDS PTZ Camera control is a simple ‘out of the box’ experience that will work with most PTZ camera brands (using “Visca over IP”) and can control up to 10 cameras. The interface allows control of most PTZ functions including:

- Camera Movements

- Exposure
- Zoom
- Focus
- White balance

Housed in a steel enclosure, it can be wall or desktop mounted meaning your control interfaces can be placed exactly where you want them. It connects to your network via Ethernet making installation quick and painless. Management of the unit is straightforward, using network connection to IDS Core or via a USB keyboard plugged in directly.

In the box:

- IDS Control System
 - IDS TS10.1
 - Support for Panasonic and Visca PTZ Control
-
