

Densitron IDS TS10.1

ProdCode: DENIDSTS101

Integrated IDS touchscreen with enhanced graphics

[\[Download Images\]](#) (.zip file)

Features

The IDS TS10.1 integrated IDS touchscreen provides a handy, ergonomic user interface for controlling remote equipment over your IDS network while its powerful display processor delivers all the information and alerts you need to keep your broadcasts running smoothly. Our interactive display is a high-contrast, high-resolution IPS TFT with a resolution of 1200x1920.

Housed in a steel enclosure, it can be wall or desktop mounted meaning your control interfaces can be placed exactly where you want them. It connects to your network via Ethernet making installation quick and painless. Management of the unit is straightforward, using IDS Core or via a USB keyboard plugged in directly.
