- USB 3.x port
- 4th generation quad core Intel Core i5 CPU (i5-4xxx or comparable)

Level up your content

You want your content to be visually captivating. With Cam Link 4K, simply hook up your DSLR, camcorder, or action cam to your PC or Mac. Set up your shot. And make it happen.

Plug 'n' produce

Coupled with Cam Link 4K, your camera appears as a webcam in all your favorite apps. Superb quality at 1080p60 or even up to 4K at 30 frames per second keeps your stream professional. Ultra-low-latency technology gets you up and running on your favorite platform in no time. And your camera has never felt more powerful.

Simplify your workflow

Say goodbye to maxing out your memory card mid-shoot. Or worse, discovering shoddy shots while editing. When recording with Cam Link 4K, all content is stored directly on your hard drive. While real-time, full-screen feedback lets you polish scenes on the spot.

It's showtime

Now there's no holding back. Playing games, unboxing gadgets, mixing beats – whatever makes your world spin – Cam Link 4K puts it live on your computer for effortless mass distribution. All you need to do is connect your camera, and let the show begin.

In the box:

- Cam Link 4K
- USB 3.0 extension cable
- Quick Start Guide
