

# Elgato Stream Deck Studio

**ProdCode: ELG10GBO9901**

Hyper-Customizable Control Surface for Pro Broadcasting, Monitoring, KVM Switching

[\[Download Images\]](#) (.zip file)

## Features

- Hyper-Customizable Control Surface for Pro Broadcasting, Monitoring, KVM Switching
- Intuitive interface with precise controls and real-time feedback
- Hyper-customizable for exact workflow needs
- Vast library of broadcast equipment integrations
- Tailored profiles with NFC authentication for custom user access
- Supports both IP and traditional SDI setups
- Auto device identification using mDNS and NMOS
- Crosspoint routing, SNMP monitoring, and KVM control
- Works great with Bitfocus Companion, best with Bitfocus Buttons
- Slots into standard 19" racks using the included brackets
- Multi-device support and scalable software plans

Hyper-customizable and widely compatible, Stream Deck Studio brings modern routing, control, and monitoring capabilities to broadcast infrastructures big and small. Paired with custom Bitfocus Buttons software, setting up and reconfiguring is quick and easy. IP and SDI protocols ensure seamless integration with both legacy equipment

and the latest devices. Design workflows your way, navigate complex setups with instant visual feedback, and personalize user access via integrated NFC authentication. Built for professional broadcasting, Stream Deck Studio combines efficiency, versatility, and cutting-edge technology to streamline production workflows like never before.
