### Features

- Audio Interface Accessory for Stream Deck +
- Mix and monitor up front, plug your XLR mic in back for a streamlined setup
- Get elite sound with 80dB gain, phantom power, and Clipguard 2.0 technology
- Enhance your voice with built-in effects like compressor and EQ
- Works with Wave Link software for easy, powerful audio control
- Wave FX Processor unifies DSP effects and VST plugins in one signal chain
- Set up in seconds—no extra USB cable required
- Save desk space by tucking the dock out of sight
- Control all your audio hardware and apps together in one place

XLR Dock MK.2 transforms Stream Deck + into your complete audio station.

Plug any XLR mic in back and get 80dB of ultralow-noise gain, phantom power and Clipguard 2.0 protection against distortion.

Shape your sound with onboard effects like voice enhancer, compressor, and EQ, all powered by Wave FX Processor, which unifies DSP effects and VST plugins in one

perfectly synced signal chain.

Tying it all together, the Wave Link app gives you intuitive control over every audio source. The dock tucks away behind Stream Deck +, clearing your desk while putting studio-grade power at your fingertips. It's not just an audio interface—it's your entire setup at your command.
