- Advanced image engine processes maximum data at high speed
- Set brightness, exposure, and more in the app
- Save settings directly to the camera
- Attach to a monitor or tripod with the included mount

System Requirements

- Windows 10 (64-Bit), Intel or AMD CPU
- macOS 11.0, Intel or Apple CPU
- USB Type C

With next-level optics, a large area SONY® sensor and high-speed circuitry, Facecam Pro captures ultra-detailed 4K60 video like no other webcam. Powerful software equips you to dial in the perfect shot with ease, and onboard camera memory keeps you looking sharp every time you go live. A field view of up to 90-degrees lets you capture your surroundings or entire team, while manual and autofocus modes put you in complete control of your image. You can even pan, tilt, crop and zoom while maintaining excellent image quality. Make no mistake – Facecam Pro is a massive leap in webcam technology.

GIANT 1/1.8" SONY SENSOR

Capture 4K60 video for the first time with a webcam. Stun your audience with jaw-dropping detail even when you pan, tilt, crop or zoom. And always look professional, even when the lights are low.

1/1.8" SONY® STARVIS(TM) CMOS SENSOR

Ultra-high definition and superior low-light performance. Plug 'n' play DSLR quality.

NATIVE 4K60 UHD

Never choose between 4K or 60 fps again. Shoot pure 4K at 60 frames per second.

Enhanced 1080p Colour Resolution

- Shoot better-looking Full HD video than you would with standard 1080p webcams.
- While standard 1080p webcams reduce colour resolution for all pixels, Facecam Pro uses the full 2x2 matrix (GB / RG) for each pixel, meaning each pixel contains full colour resolution.

XL HEAT SINK

Custom machined to keep Facecam Pro cool around the clock.

ELGATO FLASH MEMORY

Save your image settings once. Always look terrific.

OH SO MIGHTY IMAGE ENGINE. THE FIRST OF ITS KIND.

Our latest processor does a million and one things to make you shine. Like instant light correction, automatic noise reduction, and a slew of visual wizardry that brings out the

best of you. It's like having your own film crew.

Manual and Automatic Exposure

Set shutter speed and ISO like a pro.

Exposure Metering

Average, Center-Weighted, Spot.

Manual and Automatic Focus

Take control or let Facecam Pro keep the focus on you.

Autofocus Metering

Center-weighted, Spot

Real-Time Encoding

Output 4K60 video in H.264 or MJPEG format – whichever's best for your favorite apps.
