

# PTZOptics SimplTrack3

**ProdCode: HC20XSIMPLTRAK3**

The Next Generation of Dual Lens Auto-Tracking

[\[Download Images\]](#) (.zip file)

## Features

- The Next Generation of Dual Lens Auto-Tracking
- Auto-Tracking up to 55ft
- Advanced Zone Management
- 20x Zoom in 1080p
- PoE Support
- Dual-Sensor System
- 5-Year Warranty

## Auto-Tracking and Auto-Framing

The PTZOptics SimplTrack3 streamlines high-quality conference and lecture productions without a camera operator. It offers automatic motion tracking up to 55ft, 20X zoom in 1080p at 60fps, 270° rotation, and a 59.5° field of view. Connectivity is simplified through USB 3.0 and Power over Ethernet (PoE), allowing a dual-sensor camera to be powered with a single ethernet cable.

With advanced auto-tracking and auto-framing, SimplTrack3 switches effortlessly

between tracking individuals and framing groups, ideal for conferences, stage productions, and classrooms. Its smart technology focuses on the subject, ignoring distractions, with easy toggling and manual PTZ control options.

## **Advanced Zone Management**

The Tracking Zone encompasses the entire area where an auto-tracking subject might move across your frame. It's designed to ensure smooth tracking of the presenter or lecturer, covering a wide range and offering flexibility in movement.

The Preset Zone represents an innovative feature where an automated preset is triggered when the camera enters a selected area. This could include switching to a separate camera, activating a stage light, or any other preset tailored to enhance the presentation or lecture experience. The SimplTrack3 contains 8 preset zones.

The wide angle reference camera provides intelligent controls for camera operation allow the camera to have stage awareness and produce the entire event automatically.

## **Customizability**

With SimplTrack3, you can automate camera controls and quickly adapt to any unique workflow. Customized tracking sensitivity options allow for the complete customization of the zoom level, pan/tilt speeds, and automatic operations to match the educator's presentation style. Manual Mode can be enabled, allowing you to operate the SimplTrack3 with the included IR remote, a PTZ camera joystick controller, or camera control apps.

## **Set and Forget**

The PTZOptics SimplTrack3 caters to various user preferences with its auto-tracking functionality, allowing for a straightforward setup with a single button for those seeking an uncomplicated solution. For users desiring more control, the SimplTrack3 also offers advanced capabilities for more complex setups, enabling detailed adjustment and fine-tuning of the tracking process.

## **Dual-Sensor and Scalability**

The SimplTrack3's dual-sensor system provides flexibility and superior performance, simultaneously capturing wide-angle and close-up views. SimplTrack3 supports multiple video outputs for seamless system integration and is designed for scalable deployments with dedicated management software.

## **Unrivaled Warranties**

With robust warranties included standard on every product, you can trust PTZOptics solutions to deliver high performance from day one, and for many years to follow.

The SimplTrack3 comes with a 5-year limited parts and labour warranty. PTZOptics stands by our promise to protect your investment by providing repairs or replacement products for the duration of your warranty.
