Your Serial Production Workflow Deserves an Upgrade

Built on the same platform as the award-winning PTZOptics SuperJoy, the HuddleCamHD HC-JOY-G4 offers everything you love about serial control in one simple, reliable, super-sleek package, including:

- 7 Camera Quick-Select Buttons
- Iris, Shutter, & Gain Knobs
- Focus & PTZ Speed Knobs, Plus Focus Lock
- OSD Menu Control
- 10 Quick-Call Presets via Alphanumeric Buttons
- Modes for all users, including Basic, Basic PTZ, and Matrix mode

Enhanced User Experience & Control

The HC-JOY-G4 Serial PTZ joystick controller delivers a seamless user experience and is designed to adapt to a wide range of PTZ camera operation environments. With its intuitive layout, featuring seven camera quick-select buttons on the left side of the controller, users of all skill levels can easily switch between cameras. Plus, the controller's three-axis joystick offers precise control over pan, tilt and zoom functions, while the on-screen display allows users a simplified view of settings and functions. And with user modes including Basic, Basic PTZ, and Matrix, beginners and experts alike can use the HC-JOY-G4 to easily produce professional-quality video – regardless of their experience level.

Built for Versatility, Compatibility & Durability

With support for VISCA, PELCO-P, and PELCO-D protocols, and RS-232, RS-422, & RS-485 wiring methods, the HuddleCamHD HC-JOY-G4 is designed to perform with a broad range of serial production environments. It can integrate seamlessly into your existing workflow, or serve as the control center for your latest setup. Plus, redesigned with all-new premium metal housing, the HC-JOY-G4 is built to stand up to the wear and tear of even the most intense production schedules, making it perfect for long-term use in professional environments.

Advanced Tactile Interface for On-the-Fly Tuning

Get ready to take your production's precision to the next level. The HuddleCamHD HC-JOY-G4 features ergonomic, rubberized controls and pressure-sensitive, multifunctional knobs for precise, real-time fine-tuning. Intuitively adjust parameters like far and near focus, ensuring optimal image clarity. Control pan, tilt and zoom speeds, as well as the speed with which cameras travel between presets, for smooth and seamless camera movements. Perfect your lighting and exposure on the fly with iris, shutter-speed and gain settings, and use red and blue gain settings to refine your color balance – all with just a turn of your fingers. Plus, with a simple click on each knob, operators can effortlessly switch between parameters, making the HC-JOY-G4 an ideal tool for achieving professional-grade results with any serial PTZ camera setup.

Unrivaled Warranties

With robust warranties included standard on every product, you can trust HuddleCamHD solutions to deliver high performance from day one, and for many years to follow.

Our HC-JOY-G4 joysticks come with a 2-year limited parts and labor warranty. HuddleCamHD stands by our promise to protect your investment by providing repairs or replacement products for the duration of your warranty.
