

HOYA 52mm Y2 Pro (Yellow)

ProdCode: HOY0132

Yellow multi coated filter for B&W photography - 52mm

[\[Download Images\]](#) (.zip file)

Features

- HMC (HOYA MULTI COATED) to increase light-transmission and reduce flare or ghosting.
- Recommended for use in Black and White photography
- Available in sizes from 46mm to 77mm diameter
- Filter Factor: 2 (1 f/stop)

Primarily used in black and white photography, the Y2 YELLOW is arguably the most useful coloured filter, as it makes black & white photographs look like the real scene. Skies and clouds look natural, as do skin tones and green plants; colours are rendered as correct shades of grey. The Yellow filter is unique, as it lies in the middle of the visible colour spectrum and makes everything look natural. The Y2 Yellow filter uses Hoya Multicoating to increase light transmission, suppress flare and produce sharper images.

In the box:

- Y2 Pro (Yellow) filter

- protective case
