The GH25 head is designed and built for professional videographers and cinematographers who want real quality at an affordable price.

The professional fluid tripod head delivers field-tested reliability, solid construction, and all the features required for professional performance.

The GH25's features include a 100mm ball head that supports large capacity payloads and a greater counterbalance range that rises above competitors in its price range and class.

The E-Image GH25 will fit a 100mm bowl tripod system. It has a 0-7 stepped Tilt drag system and a 1-15 counterbalance system providing maximum adjustability for differently configured payloads of up to 61.7 pounds. A professional fluid pan with stepped settings of 0-7 provides further adjustability to meet every shooting contingency. The head incorporates an illuminated bubble level, and a ¼"-20 threaded mounting point for a monitor arm or other accessories.
