The Helia HF150 is a 4" Fresnel light with an 150W output and a bi-colour range from 3200K to 5600K. Equipped with an 8-leaf barn door, the Helia HF150 provides enhanced light control, allowing you to sculpt your lighting with ease. Whether you prefer on-device control or DMX512 functionality, the Helia HF150 offers options to suit your workflow.

Bi-Colour Fresnel

The 4" Fresnel lens gives professionals better control over the use of the light. With its bi-colour capabilities, the HF150 can help colour match in all production situations. The Helia has a very consistent colour across all temperatures giving it high CRI and TLCI ratings.

Beam Angle

The Helia's 20 to 70 degree beam angle can easily shift from flood to spot, making it very helpful in any production. The light can be substituted for a 500 watt hot light.

Included Accessories

The 4 inch Fresnel comes with barn doors and a gel frame to help you get the look that you want.

DMX In and Out

The DMX 5-pin in and out connectors give you better control over the light.

In the box:

- 1x 4" Fresnel Light
 - 1x Barn Doors
 - 1x Gel Frame
 - 1x Power Cord
