ProdCode: IKALEC1060

Honeycomb 60 Degree for Lyra 1×1 Lights

[\[Download Images\]](#) (.zip file)

Features

- Honeycomb 60 Degree for Lyra 1×1 Lights
- 60 degree Honey Comb Pattern
- Controls Light Spill
- Compatible with the LBX10, LWX10, LBX10-POE, LB10, LW10
- Lightweight and Easy to Attach

The 60-Degree Honeycomb Grid is a precision light modifier designed to refine the 110-degree native beam of the LBX10, LWX10, LBX10-POE, LB10, & LW10 fixture into a focused 60-degree spread, reducing peripheral spill while maintaining even illumination for studio photography and videography applications. The honeycomb grid features a hexagonal cell structure that directs light forward, allowing creatives to shape soft, directional lighting with crisp falloff – ideal for product shots, portrait work, and controlled environment setups.

The safety wire loop on the light modifier enables secure attachment of the included stainless steel safety cable to the fixture, providing a secondary safeguard.

In the box:

- 1x Honeycomb
 - 1x Safety Wire
 - 1x Safety Loop
-
