The CAM230 is a multi-camera switcher that allows users to easily switch between up to three video cameras during a virtual meeting or presentation. The CAM230 connects to 2x USB3.0/2.0 cameras and 1x HDMI camera and outputs a single video stream on USB 2.0 MJPEG and HDMI 2.0. With its easy-to-use push-button or via control pad switching, facilitators can ensure all participants are given equal opportunities to speak and contribute to the conversation while supporting whiteboard and document cameras for added collaboration and productivity.

- Connects to 2x USB3.0/2.0 and 1x HDMI cameras
- Video output on USB 2.0 and HDMI 2.0
- Easy push-button switching or via control pad for seamless camera transitions
- Supports whiteboard and document cameras for more efficient collaboration
- Cost-effective, versatile, and easy to use for improved meeting equity in virtual settings

Plug & Go with the INOGENI CAM230

This easy-to-use multi-camera switcher requires no drivers for seamless and effortless switching between 2 USB and 1 HDMI cameras. Capture, mix, and switch with INOGENI's professional camera selectors for a dynamic and engaging presentation experience.
