

INOGENI SHARE2

ProdCode: INOSHARE2

Dual Input to USB AV Converter with PiP

[Download Images] (.zip file)

Features

OPTIMIZE your video collaboration and webcast with two cameras.

Works with Skype®, Zoom®, Webex®, GoToMeeting®, Hangouts®, etc.

Reduces hardware complexity and connections to your computer.

Easy, No Drivers, No Setup!

Versatile!

Compatible with all Apps!

SHARE2 features a mixer to embed two video sources into one single stream. This is an important asset if your application only supports one video interface, like Skype®, Zoom®, Webex®, GoToMeeting® and all video conferencing applications.

The device can be controlled by an application on the host side using our USB HID interface or with RS-232. You can also use the keypad on top of the device to control it manually.

- Dual HDMI/DVI to USB 3.0 Multi I/O Capture
- Mixer feature: Hardware mixer into a single USB 3.0 interface
- Control interface: LAN, RS-232, USB
- Local and remote keypad
- HDMI, DVI, VGA or CVBS video input connectors. [VGA and CVBS are available using an adapter]
- Line-level stereo audio support
- Digital Fluid technology: Internal frame buffers maximize frame rate with any host
- Hardware-based colour space and sampling conversion
- Automatic scaling and frame rate conversion
- Customizable video processing functions
- Image controls: Brightness, contrast, saturation and hue settings
- Supports multiple devices on the same host
- Compatible with Windows, Mac OSX and Linux

Note: For USB cameras, see [SHARE2U](#).

In the box:

- SHARE2
- Power supply
- USB 3.0 cable
- HDMI-to-DVI adapter
- VGA-to-DVI adapter
- serial RS-232 cable
