

Kenko 95mm MC UV

ProdCode: KENKO2188

UV Filter - Multi-Coated, Slim frame - 95mm

[\[Download Images\]](#) (.zip file)

Features

- Eliminates ultra-violet rays which can sometimes cause a hazy, blue cast in outdoor colour photography
- Multi-Coated Surfaces help to prevent lens flare and ghosting
- Slim Frame makes it ideal for use on telephoto lenses

The Kenko Digital UV Filter eliminates ultra-violet rays which can sometimes cause a hazy, blue cast in outdoor colour photography, as well as protecting the front element of your lens against dust, moisture and scratches. UV filters are especially useful when photographing scenes such as mountains, beaches, areas of snow, and any other situations where there is a lot of UV light present. The slim frame is ideal for wide-angle lenses and the multi-coated glass helps prevent flare and ghosting. Supplied in a protective filter pouch.
