

Kenko 52mm AC CLOSE-UP No.2 MC

ProdCode: KENKOM0326

High-performance close-up lens - +2

[\[Download Images\]](#) (.zip file)

Features

- High-performance close-up lens
- Consists of a set of two component lenses to suppress aberration
- Shortens the minimum focus distance of lenses
- Aluminium frame

Easily attach AC Close Up filters to the front of your lens and immediately enjoy macro photography. A close-up lens is perfect for filling the picture with a flower, or getting close to a particular part of it, such as the stem or petal.

For telephoto zoom lenses with a minimum working distance of approx 1m, Close Up No.2-3 are recommended.

For standard zoom lenses with a minimum working distance of 30cm or less, No.3-5 are recommended.

Close-up lenses can be stacked, for example No.2 and No.3 will give you No.5 magnification.

Without Filter

With Close Up No.2

With Close Up No.3

With Close Up No.4
