The Cine Lens Clamp-On Adapters slide onto the outer diameter of your cinema lens with a generous 8.5mm overlap. This helps to distribute the weight of the Matte Box and clamp securely to the lens. Machined cutouts are used to reduce weight and provide the necessary flex for clamping.

A bearing groove around the outside of the adapter catches inside the 95mm Lens Clamp Back and acts as a safety catch for your KONDOR BLUE Matte Box. Each adapter is sold individually so you can pick exactly what you need for your lens kit.
