Expanding on the incredibly popular KONDOR BLUE EDC Multi-Tool, the David Manning EDC (everyday carry) Multi-Tool Clip brings the essential bits that you reach for to your pocket or bag. Designed with function, form, and fun in mind, David and our team poured over every detail of the EDC Multi-Tool Clip to create a robust tool that's endlessly fidget-able and the perfect addition to your everyday carry kit.

Built into the heart of the EDC Multi-Tool Clip is an integrated AirTag holder, keeping your keys, your tool, or any bag you have it clipped to easy to locate. Magnetic storage built into the side of the clip fits two standard 1/4" bits keeping your favorites always on hand and ready to quickly move into the magnetic drive slot up top (#2 Phillips & 4mm hex included). An integrated flathead/box cutter combo ensures camera plates are tight and makes quick work of Amazon boxes. The spring-loaded slide gate not only opens to reveal a hidden bottle opener, but snaps closed with a satisfying click that will have you fidgeting all day long. Even the smooth circular loop was expertly designed for optimal spin on your finger. Every detail has been crafted with you in mind.
