ProdCode: KONPRGDRCBK

Rosette Pivot Module Grip - Set (2 Reversible) + Dual Rod Clamp - Raven Black

[\[Download Images\]](#) (.zip file)

Features

- Rosette Pivot Module Grip
- 30 adjustment positions
- Left/Right compatible
- Super smooth rotation
- Minimal play in the quick-release mechanism
- 60-tooth ARRI style rosette with M6 tightening bolt and female mount
- Ergonomic rubber grip comfortable in any shooting environment

Fully redesigned from the ground up, the all-new KONDOR Blue Rosette Pivot Module Grip is better in every way. Gone are the days of needing to pick a left or right version as the new module is both left/right compatible simply by rotating 180°. The adjustment positions have received a 50% increase from 20 to 30 positions. The adjustment mechanism has also drastically improved to 2x stainless steel pins for additional strength and safety redundancy. Finally, the play has also greatly been reduced with the introduction of an ultra-smooth thrust bearing to even out the load and maximize torsional and rigidity.

The 60-tooth ARRI style M6 rosette is compatible with any standard rosette including our range of Rosette Accessories. The KONDOR Blue Grip is ultra-ergonomic. Made from a pliable, yet durable rubber—the grip is the perfect balance of grip and comfort. The flared edge prevents hands from slipping and the embossed logo and edge ridges provide extra grip. The grip also features a strap loop and anti-twist 1/2"-16 mount with 1/4"-20 bushing on the base of the grip.
