

Kondor Blue Pro Pivot Rosette Module

ProdCode: KONPRM

Rosette Pivot Module - Space Grey

[\[Download Images\]](#) (.zip file)

Features

- Rosette Pivot Module
- 30 adjustment positions
- Left/Right compatible
- Super smooth rotation
- Minimal play in the quick-release mechanism
- 60-tooth ARRI style rosette with M6 tightening bolt and female mount
- 85g/3.0 oz
- 38.5mm W x 38.5mm T x 26mm D

Fully redesigned from the ground up, the all-new Rosette Pivot Module is better in every way. Gone are the days of needing to pick a left or right version as the new module is both left/right compatible simply by rotating 180°. The adjustment positions have received a 50% increase from 20 to 30 positions. The adjustment mechanism has also drastically improved to 2x stainless steel pins for additional strength and safety redundancy. Finally, the play has also greatly been reduced with the introduction of an ultra-smooth thrust bearing to even out the load and maximize torsional and rigidity.

The 60-tooth ARRI style M6 rosette are compatible with any standard rosette grip or arm. The applications for the Rosette Pivot Module are endless. They work especially well with the KONDOR Blue Wing Side Handles and Rosette Accessories.
