### Features

- Top Handle for Sony FX3/30
- Mount Sony FX3/30 Top Handle directly to the cage
- Seamlessly integrates with the KONDOR BLUE Sony A7 Cage
- Built-in bubble level
- Angled cold shoe with safety stop
- Multiple ¼ 20 mounting locations

The Sony FX Top Handle has been an essential accessory for the Sony FX3/30 integrating professional audio solutions natively into the camera body through the hot shoe. However, the lack of additional support mounting holes on the Sony A7's body made it difficult to adopt. The KONDOR BLUE Sony A7 FX Handle Top Plate solves that problem. By simply upgrading the Top Plate of the KONDOR BLUE Sony A1/A7 Series Cage, users can now mount the ¼ 20 bolt from the Sony FX Top Handle directly into the cage.

This solution is incredibly robust and brings not only the additional functionality of the top handle to the camera rig, but a clean solution for additional mounting holes ideal

for cable routing, cold shoe accessories, and relocated strap loops. This is a must-have solution for any users looking to add the Sony FX Top Handle to their Sony A Series kit.

\*Only compatible with V3 of the KONDOR BLUE Sony A1/A7 Series Cage. Contact Customer Support for compatibility questions.
