- 75g/ 2.65oz
- 32mm W x 50 mm T (Inside nato to inside nato) x 32mm D

The Nato to Nato Swivel Tilt Monitor Mount is designed to attach your monitor to the camera cage or other mounting system. This monitor mount is one of a kind and sets a new standard for what to expect from your monitor mounts. The tension on both the tilt and swivel is adjustable and can be locked in via 3 set screws. Furthermore, the mount tilts, then swivels, making it much more versatile when mounted to the front of a top handle.

The Tilt Nato can also be pivoted 90° to accommodate direct mounting to your cage or to the front of a top handle such as the Talon series which features a nato rail on the front of the top handle. The Nato to Nato mount also pairs well with the KONDOR BLUE Monitor Cage Natos and Mic Shock Mount.
