- Mounted Height: 67.5mm/2.6"

The Talon XL Top Handle is the bigger brother to the Talon Top Handle. It features the same molded rubber pad, which has been contoured to perfectly fit your hand.

Not only is the Talon XL 20mm/.75" longer, it also features a remote trigger Run/Stop button. This makes operating the camera from the top handle a dream.

Much like its namesake, the Talon XL Top Handle is meant to clasp all of your accessories with a range of mounting options. Starting at the front, a short Nato allows for quick accessorizing or mount any of our Monitor Mounts via the " Arri Mount. The top features a REC button and cold shoe mount, two more " Arri mounts pre-loaded with " to ¼ bushings, Nato rail, and our signature bubble level. Finally, the back has an additional cold shoe mount with a threaded ¼" 20 mount perfect for wireless mic receivers or other small accessories.

The Talon XL mounts via a Nato clamp and has a built-in 4mm hex tool to save you in a pinch with mounting other popular accessories. Designed with versatility and comfort in mind, the Talon XL is ready for anything.
