ProdCode: LANWKNDPBPSAND

Camera Backpack with Camera Cube - Sand

[\[Download Images\]](#) (.zip file)

Features

- Camera Backpack with Camera Cube
- Water resistant Rugged Twill fabric for durability and ultimate weather protection. Rugged Twill is a material that softens and wears with use.
- Camera Cube includes 6 customizable foam inserts designed to cradle any camera body, DSLR, Mirrorless or Film and up to 4 lenses
- Removable Camera Cube can be used independently of the backpack
- Internal divider between the upper and lower compartments zips away to provide a large internal space when used as a backpack
- German engineered Fidlock Magnetic V-Buckles provide quick access and closure
- Breathable back panel and shoulder straps for all day comfort
- Adjustable sternum strap for improved stability over rough ground
- Two external side pockets suitable for a small waterbottle and other accessories
- Two large Internal zipped pockets for storing documents and valuables
- Front External hidden zip pocket.
- Padded 13in laptop pocket with back panel or top access.

- Langly silicon printed logo on the front of the bag

The Weekender Backpack With Camera Cube is a low profile designed backpack for the content creator and photographer, and with the camera cube removed, it's equally at home as an every day backpack.

This versatile camera backpack has two compartments, the lower compartment holds the removable camera cube, with the upper compartment for every day items such as clothing, books, etc. Unzipping the internal divider transforms the Weekender from a dedicated camera bag to an everyday bag - perfect for university, work or those around town missions without your camera.

When used as a camera bag, access to your equipment is via the full zip away back panel - this opens up the entire backpack for quick and easy access to the camera cube. Additionally the bag can also be accessed via the roll top closure on the top of the bag.

The camera cube is large enough to hold 1 body and up to 4 lenses easily.
