

Lindy 65W USB Type C GaN Charger

ProdCode: LINDY73427

Compact, fast USB Type C Charger

[\[Download Images\] \(.zip file\)](#)

Features

- Compact, fast USB Type C Charger
- Charges and powers a device via one USB Type C port
- Compact, innovative folding design ideal for travelling with no protruding pins to damage your valuable equipment.
- 65W GaN technology provides fast charging for smartphones, tablets, laptops and other mobile devices
- Compact design and lightweight for maximum mobility
- Built-in safety features such as overvoltage and overcurrent protection

The Lindy 65W USB Type C GaN Charger is a compact, efficient solution for charging many devices. It provides fast charging for USB Type C PD and PPS-enabled devices. Thanks to the small design the charger can easily be carried and is always available when power is needed.

Featuring a single Type C female USB port this charger is ideal for use with most popular smartphones and iOS devices. Supporting GaN technology of 65W and PPS (Programmable Power Supply), connected devices can be provided with faster and

smarter charging than what is possible from a standard Type C charger supplied with many devices; it can modify voltage and current in real-time by feeding maximum power based on a device's charging status.

For safe charging the device includes overcharge, overcurrent, overtemperature and short circuit protection.
