Logickeyboard has designed an innovative braille keyboard for the visually impaired. This keyboard will help blind users navigate a keyboard to make their lives easier. It can also assist users who are learning braille.

The braille keyboard is uniquely crafted to be incredibly durable, outlasting any other braille solution.

Our Nero Slim Line offers great ergonomic support with an 8° typing angle, comfortable tactile feedback with our scissor-switch mechanism and perfect balance and weight. It is easy to set up and use and requires no installation software.
