Transform your computing experience with the Braille Logickeyboard, designed for the blind and visually impaired users. This thoughtfully crafted keyboard offers a user-

friendly solution, helping blind people navigate a keyboard, to make their lives easier. This innovative Braille keyboard transcends barriers, ensuring accessibility to technology for all.

Molded braille dots

The only keyboard in the world with molded braille dots, therefore no stickers peeling off. Our braille keyboard is uniquely crafted to be incredibly durable, outlasting any other braille solution.

Two built-in USB hubs

For your convenience the Logickeyboard is equipped with two built-in High-speed USB hubs for easy connection of peripherals, ex. ex. memory stick or computer mouse, or the LogicLight keyboard lamp if working in dimmed light environments.
